Fall 1934, Spring 1935
List No. 9. Retail Only

PRICE LIST

All plants guaranteed to arrive in growing condition, but do not guarantee results. Any complaint must be made on receipt of plants.

If plants are not satisfactory I will be just as pleased to receive your complaint as a word of praise.

I will make no substitutions unless requested to do so. All plants are 15 cents each unless otherwise specified. Postage must be added; and if sufficient postage is sent, I will include

an extra plant if the order amounts to a dollar or more.

If you send too much postage, excess will be returned. Quite a few have not sent sufficient postage and some none at all, and in such cases I have to omit some plants to make ends meet, and I do not like to do this.

All plants perennial except as noted. r stands for rockery, and n for native. Orders for \$3.00 or more which can go in one shipment will be sent post paid.
